Disposal of Empty Laboratory Chemical Containers and Glassware

Chemical Containers

- Unbroken Chemical Containers
  - glass or plastic or metal and with or without barcode
  - Use for disposal of empty containers and glassware,
  - Rinse container with tap water, if necessary, and place in specially designated plastic-lined, cardboard Glassware Disposal Box in your lab.
  - Glassware and Containers must be completely empty of chemicals.
  - Close box once filled (do not overfill), tape closed and request a pickup.
  - Obtain replacement Glassware Disposal Box from Lamont Safety.
